Feng Shui Love

by Richmond authors Joni Davis and Lisa Hyatt

This hilarious new twist on the perfect love (the second time around) is fast becoming a chick lit sensation!

"Joni Davis and Lisa Hyatt have tossed up an array of quirky, hilarious, and yes, sometimes duplicitous characters—just like the people we love—in the amazing bond of life for a fun, entertaining read. My recommendation? Stop rearranging your furniture and spend your time reading *Feng Shui Love*. Along the way, you might learn a little about life's own self!" *Beryl Jenkins, The Big Deal*
